# EDDY HEAT GUN - MARK IV

## Why Eddy Heat Guns are the High Temperature Hot Air Heating Tools Preferred by Leading Industrial and Commercial Users.

Since their introduction to the trade, versatile Eddy Heat Guns have established impressive records for rugged performance through prolonged motor brush and element life in both intermittent and continuous duty applications.

Where required, U.L. models are available in each heat range . . . low, medium and high.

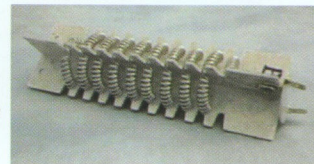

### Check these user-friendly Eddy Heat Gun standard features:

- Weighs only 2¼ lbs., including stand, for ease of handling
- Replaceable brushes are easy to service and extend the operating life of the gun
- Housing, handle, safety stand and trigger guard of rugged G. E. LEXAN® for superior electrical insulation properties, corrosion and impact resistance
- Unique suspended quick change heating element design prolongs life and eases servicing
- Adjustable air intake regulator provides variable temperature adjustment within the unit's rated heat range
- Double-jacketed nozzle and shield helps maintain cool exterior temperatures
- Toggle type control switch provides hot-cold-off operation
- Nozzle air opening 1¼" diameter
- 50/60 cycle - AC motor
- 6 ft. three-wire grounding type strain relief cord features neoprene jacketing and molded plug
- Includes circular safety stand
- 1 year warranty
- Delivers superior air flow, 27 C.F.M. air volume at 3300 F.P.M. velocity

© LEXAN is a registered trade name of the General Electric Co.

## HOT New Tool!

### EDDY MARK IV HEAT GUN "BREAK RESISTANT ELEMENT"

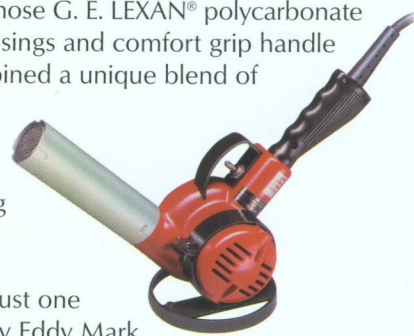

1. Solves problems due to rough handling and dropping
2. Increases element life by as much as 300%

## What does General Electric (GE) Lexan® mean to you?

Eddy Products chose G. E. LEXAN® polycarbonate resins for its housings and comfort grip handle because it combined a unique blend of rigidity, impact strength, toughness and self-extinguishing flammability performance.

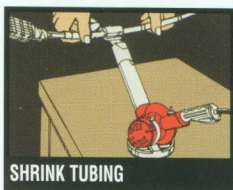

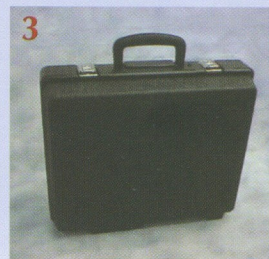

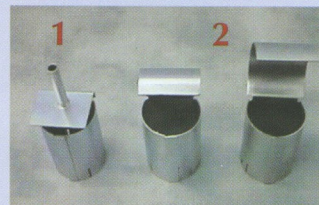

G. E. LEXAN® is just one more reason why Eddy Mark IV Heat Guns should be your first choice!

## ACCESSORIES FOR EDDY HEAT GUNS

For added versatility and utilization of Eddy Heat Guns, a selection of slip-on attachments are available to adapt the unit for processing shrink tubing or connectors...to concentrate heat...and a convenient carry case to store and protect the gun in work areas and in transit.

1. Heat concentrator attachment for limited area coverage and efficient shrinking of small size tubing.
2. Shrink tube reflectors in two sizes handle most requirements. One is for tubing up to 1" O.D. and the other up to 2" O.D.
3. Rugged polyethylene carrying case holds heat gun, stand and accessories.

# EDDY ELECTRONIC HEAT GUN - VT-1100

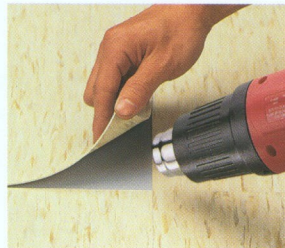

*Compact - Lightweight - Easy to Use*

- ✓ Variable Temperature Control Dial
- ✓ Temperature from 250°F - 1100°F
- ✓ Solid State Construction
- ✓ Built In Safety Stand
- ✓ Two Speed Motor
- ✓ High Quality Heat Element

## APPLICATIONS

- Strip Paint & Varnish
  - Shrinking/Softening
  - Thawing or Drying
  - Automotive Repair
- HUNDREDS OF USES

Available Nozzle Attachments

## SPECIFICATIONS

- Weighs Only 1.6 lbs.
- 1200 Watts
- 120 VAC/10 Amp
- UL & CSA Listed

# EDDY HEAT GUN - MARK IV

Heavy-Duty Industrial Quality

Model Number	Voltage	Amp	Approx Temp. F.
EP-3UL	115	9	300-500
EP-5UL	115	12	500-750
EP-6UL	115	14.3	650-900
EP-7UL	115	15	750-1000
1100 Plus	115	15	850-1100
CUL Listed			

Eddy Heat Guns With Break Resistant Mica Elements / Add The Suffix M To Model Number / Example EP-5ULM. 1 Year Warranty Includes Element Breakage

Model Number	Voltage	Amp	Approx Temp. F.
EP-3A	230	5	300-500
EP-5A	230	6	500-750
EP-7A	230	8	750-1000
