

Environmental comitment

Intimus launched eco signature to identify the most efficient and environmental friendly solutions. The signature reflects our aim to inform customers of the environmental progress we have made in the last years.

With the TSI , we have achieved a great improvement on environmental impact.

The TSI is compliant to environmental regulations (Energy related Product - stand by and off mode , REACH, ROHS, and WEEE).

ENERGY : A working year on the TSI consumes 7 times less energy due to automatic sleep mode and auto-off (0,3W) *

PACKAGING : The carbon footprint during transport is improved since ratio of packaging volume vs TSI volume is low.

Technical specifications

TSI

**BUSINESS
INFORMATION
SOLUTIONS**

THE SOLUTION THAT COMBINES **COMFORT** AND **EFFICIENCY**

Imagine if you no longer had to prepare your mail by hand? The intimus TSI deals with the job for you, enabling you to perform other tasks. With its compact size and fold-away catch tray, this solution fits any office environment.

The TSI can be installed on a desk so it is near-at-hand. Its control touch screen makes the TSI very convenient and easy to use..

“EASY TO USE”

no special skills required

“VERSATILE”

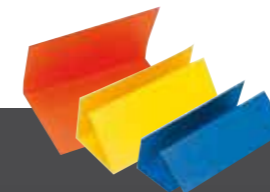

various types of envelopes

“FULLY ACCESSIBLE”

modern design

“COMPACT”

fits on any desk

A PERFECT COMBINATION OF CONVENIENCE AND EASE-OF USE

The TSI is fully controlled from its new user interface, a modern colour touch screen with only two buttons. No more need for skilled operators – anyone can use it. Just load your documents and envelopes, and let the software guide you through adjusting the settings. Its 15-job memory enables you to store the settings for all your regular mail runs, allowing instant recall.

THE IDEAL ASSISTANT IN ANY OFFICE ENVIRONMENT

Combining ease-of-use and flexibility to save time and improve efficiency, the TSI is compact and silent enough to suit any office environment. The space taken up by this solution is optimised even further thanks to its fold-away catch tray.

A VERSATILE WORKSTATION TO FULFIL YOUR NEEDS

The TSI can handle a wide range of documents, envelopes and even inserts or business reply envelopes. You can choose between four fold types according to your requirements.

The automatic cascade feed function rules out down time thus optimising productivity. The manual feed function allows you to feed up to five sheets for each mailing project, stapled or not.

MAIL INTEGRITY AND ACCURACY GUARANTEED

The Double document control prevents double feeding. Its insensitivity to coloured paper and dust ensures complete reliability. The system guarantees that you will always send the right document to the right recipient.

EXCELLENT ACCESSIBILITY KEEPS YOU UP AND RUNNING

With only one button to open the machine, there is quick and easy access to all parts of the folding area and paper path.
