

The BCS210 is a business card slitter that will easily convert 8 1/2" x 11" sheets into finished 2" x 3 1/2" business cards with a simple two pass operation. It cuts the 8 1/2" x 11" sheets into two strips of 3 1/2" x 11" on the first pass and finishes the job by taking the 5-up sheets and cutting them down to 2" x 3 1/2" business cards on the second pass. It has adjustable paper guides for easy setup for customized needs. The cutting blades are semi-self sharpening for years of operation without sharpening or replacement. Stacks up to 5/8" thick can be ran continuously allowing operation of up to 375 cards per minute.

- ✓ 10-up card layout format
- ✓ Cutting blades are semi-self sharpening for years of operation without sharpening or replacement
- ✓ Adjustable paper guides allow for easy setup for customized needs
- ✓ Continuous feeding of stacks up to 5/8" thick
