

MediaDice

A Desktop Optical Media Destruction Unit that Pulverizes CD, DVD, Blu-Ray and Other Disc Technology.

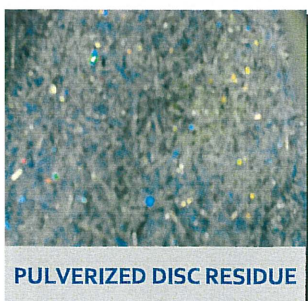

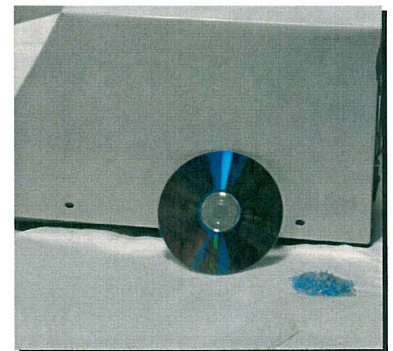

- In 2011, the Federal Trade Commission received 1.34 million complaints of identity theft, fraud, invasion of privacy, and other data security related breaches.
- Used and improperly disposed of optical media and magnetic stripe cards (bank cards, driver's licenses, badges etc.) that contain classified, security sensitive and/or personal information, have become as easy target for criminals.
- Breaking, degaussing, file deletion and erasure have proven ineffective due to the high risk of recovering data using forensic techniques.
- The only proven and true technique to rendering data on this type of media unrecoverable, is complete physical destruction.

Introducing Phiston Technologies' MediaDice, a desktop solution for fast and complete disposal of optical disc and magnetic (strip) card data storage media. The MediaDice has been designed to exceed NSA guidelines and specifications for CD Destroyers, and surpass any other comparable unit on the market today.

KEY BENEFITS

- Auto feeder with 200 disc capacity
- Completely automatic feeder and destruction process
- Small enough to fit on a desktop
- Plugs into standard 15 Amp power outlet — no adaptors needed
- Exceeds NSA specifications for data destruction
- Also destroys bank cards, ID badges, and driver's licenses
- Process is completely "hands-off"

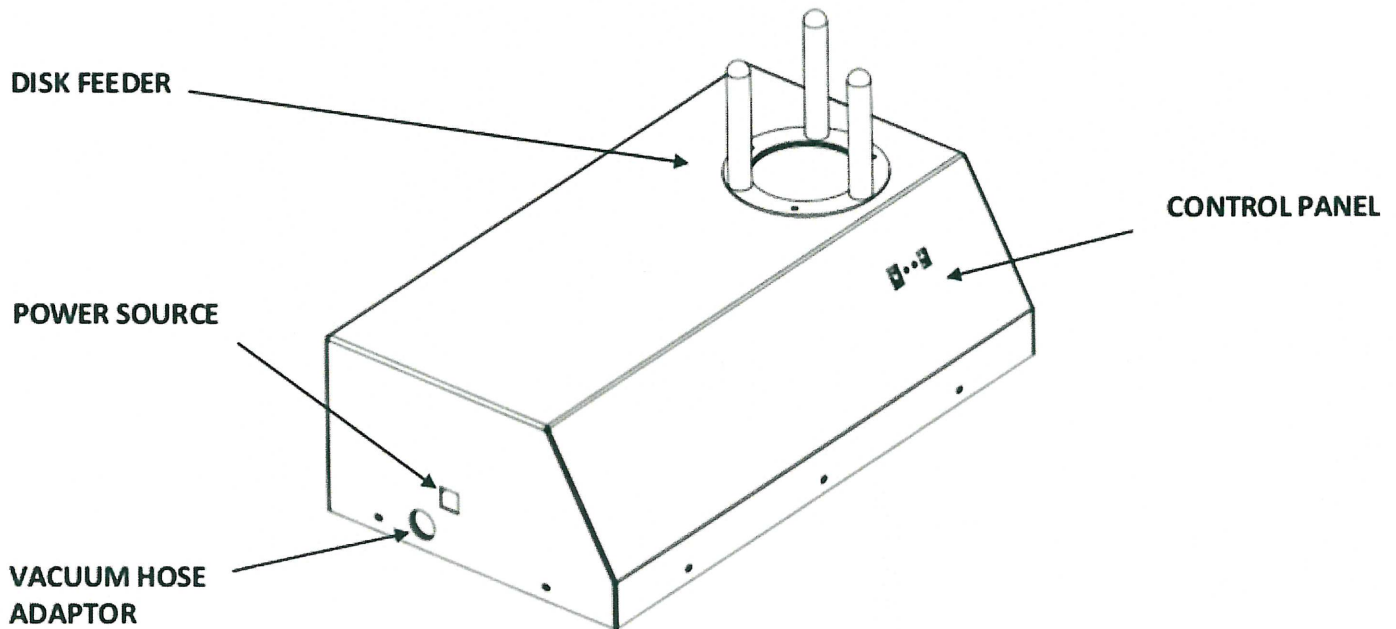

PRODUCT FEATURES

- The hardened steel knife mill at the heart of the MediaDice aggressively chops, dices and pulverizes the media
- The particle size, 1mm x 5mm, exceeds level 6 NSA/CSS Specification 04 - 02
- The waste is recyclable

MediaDice

Technical Specifications

MODEL	MediaDice
PRODUCT DIMENSIONS	15.5" x 28" x 9.5" (L x W x H)
WEIGHT	113 lbs.
MAXIMUM CURRENT	15 A @120 V
VOLTAGE	120 V +/- 10% , 60 Hz
MEDIA ACCEPTED	CD, DVD, Blu-Ray and other disc technology, also credit cards, driver's licenses, badge-type ID's
WASTE DISPOSAL	Vacuum port for use with any standard 1 1/4" vacuum hose
CYCLE TIME	500 - 700 discs per hour
